

MEASUREMENT GUIDELINES

A.) Measurement from the neckline to the bottom of the jacket in front where you'd like the jacket to hit. You'll also need this measurement in back.

B.) Measurement around your neck circumference.

C.) Circumference around bust at largest point.

D.) Circumference around waist at smallest point.

E.) Arm length from top of sleeve seam to wrist. *It helps to take when arm is slightly bent to allow extra length.

F.) Circumference around top arm.

G.) Circumference around top of forearm.

H.) Wrist circumference.

I.) The measurement across your chest (between the bust line and neck line). Take the measurement about where the sleeve seams hit. You'll also need this measurement across the back.

J.) The circumference of the bottom of the jacket.

**Please don't make allowances in measurements. You're measurements will be adjusted accordingly to allow movement where need be.*
